Please bring this form, your medicare card & relevant imaging with you. Your doctor has recommended that you use Gympie Radiology. You may choose another provider but please discuss this with your doctor first.

Appointment Date:..... Arrival Time:.....

## Preparation

### MRI

There are circumstances under which MR imaging should not be done, and other circumstances which call for precautions. You must tell us if you have a cardiac pacemaker, cerebral aneurysm clips, an insulin pump, or other infusion pump, cochlear (inner ear) implant, neurostimulator, or any other metal in the body, especially your eyes. In most cases, no advance preparation is required. Eat normally and take any medication as usual, unless you have been informed otherwise.

### CT

#### Spine / Limbs / Sinuses

No special preparation

#### Abdomen / Pelvis / Chest / Head / Angiography

No solid food for 4 hours prior. You may be asked to drink either water or an oral contrast solution 1 to 2 hours prior to the examination to define your gastrointestinal tract. Please notify us if you are diabetic.

#### Coronary Angiography / Colon / Small Bowel

Special preparation is required and will be arranged at the time of your booking.

### Nuclear Medicine

#### Bone Scans / Labelled White Cell Scan / Gallium Scan / VQ Scan / Brain Spect

No special preparation

#### Myocardial Perfusion Scan

Cease all caffeinated and de-caffeinated products 24 hours prior. Cease Beta Blockers 48hours prior and/or Calcium Channel Blockers 24 hours prior (check with your Doctor). Wear loose clothing and joggers. Bring all medications to your appointment.

#### Renal Scans / Hida Scans / Gastric Emptying Study / Thyroid Scans / All other Scans

Special preparations are required for all these scans and will be arranged at the time of your booking.

### Bone Densitometry Scans

No preparation

### Breast Imaging

#### Mammogram

No deodorant, talc, perfume, moisturiser or body shimmer around the breast or underarm areas.

### Ultrasound

#### Abdominal / Liver / Gall Bladder / Pancreas / Aorta

Nothing to eat or drink except sips of water and no smoking or chewing gum for six hours prior to the examination.

#### Renal / Kidneys / Bladder

Drink 2 litres of water the day before your appointment. Nothing to eat or drink six hours prior to the examination. Empty your bladder 1.5 hours prior to the appointment. Then drink 1.5 litres of water over the next 30 minutes and hold until your appointment. For children under six years of age, drink two glasses of water 30 minutes before the appointment.

#### Pelvic Ultrasound / Pregnancy under 12 weeks

Empty your bladder 1.5 hours prior to the appointment. Then drink 1 litre of water over the next 30 minutes and hold until your appointment.

#### Pregnancy 12 to 22 weeks

Empty your bladder 1.5 hours prior to the appointment. Then drink 500mls of water over the next 30 minutes and hold until your appointment.

#### Pregnancy over 22 weeks

Drink 2 glasses of water 45 minutes prior to your examination and hold until your appointment.

#### Echocardiography

No preparation

#### Carotids / Veins

No preparation

#### Arteries

Nothing to eat or drink except sips of water six hours prior to the examination.

#### Thyroid / Testes / Musculoskeletal / Breast / Limbs

No preparation is required
